**Forecast for Sunday 01 Aug 2021**

**Weather:** Cloudy start with some mist across higher slopes as a weakening band of cloud and drizzle edges south across the park. Showery outbreaks of drizzle persist throughout the morning with cloud breaking readily early afternoon. Some sunny spells develop during the afternoon allowing some late afternoon warmth. Clear spells continuing into the evening.

**Chance of cloud free mountain/hill tops above 600m:** 20% rising to 90% during the afternoon.

**Visibility:** Generally moderate with some poor visibilities early morning as outbreaks of showery rain and drizzle track south across the park. Areas of cloud during the morning with bases from 400-500m will also give poor visibilities near summits. During the afternoon any rain and drizzle should clear as cloud bases lift and break offering a marked improvement to visibilities.

**Meteorologist's View**

A damp and cloudy start to the day on Sunday and with low cloud leading to poor visibilities near summits, good navigation skills and wet weather gear will be required if heading out into the hills early in the day. Conditions improve during the early afternoon with some strong sunshine and thus high UV levels, sun protection is also recommend.

**Recent rainfall:** measured at Neuadd: altitude 353m
